This map is intended for informational purposes only and is for use by riders with appropriate technical skill, at their own discretion and risk. For further traveler information on closures, conditions and more, visit the Idaho 511 website or dial 511.
Cattle gatherings are common in rural Idaho. Mules, horses, and cattle are often used to pull wagons or other heavy loads. Be mindful of the possibility of encountering livestock on the road and plan accordingly.

Shoal of Trawls/Swaggers

Provide comfort in traffic.

Motorcycle Rider Training

Motorcycle rider training is associated with a 44% decrease in fatal crash risk. (Idaho DOT, 2021) If you plan on riding, we recommend:

- Idaho STAR program: www.idahostar.org
- Learn to Ride: 208.338.5599
- Chatterson’s Great Teton
- Harley-Davidson Riding Academy: TetonHarley.com 208.522.144

Get Endorsed

To operate a motorcycle in Idaho, you must have a valid driver’s license with a motorcycle endorsement which will be evidenced by the state’s motor vehicle registration. If you do not have a motorcycle endorsement, you must take a state-administered motorcycle knowledge and skills test. You must also pass the skills test.

- Your license is expired for more than 24 months.
- You have an out-of-state or foreign motorcycle endorsement.
- Under 21 years of age

Avoid Aggression

Spreading, targeting, and making frequent lane changes create a dangerous situation on the roadway for everyone. Aggressive driving can result in stopping, anger or frustrated, take a deep breath and move on. Be courteous to others.

On the Road in Idaho

Motorists are invited to have a varied travel experience. Wide streets throughout the state can accommodate large, fast-moving, commercial trucks, making traffic conditions demanding for all road users. Be prepared to maneuver, experience the diverse landscape, and enjoy what each road has to offer.

Sections highlighted as technical are designed for experienced riders; however, be prepared to encounter challenging environments and road users. Ask locals for their conditions and recommendations on the current construction projects.
